

## Modular Scifi Bridge

Thank you for buying this model pack.

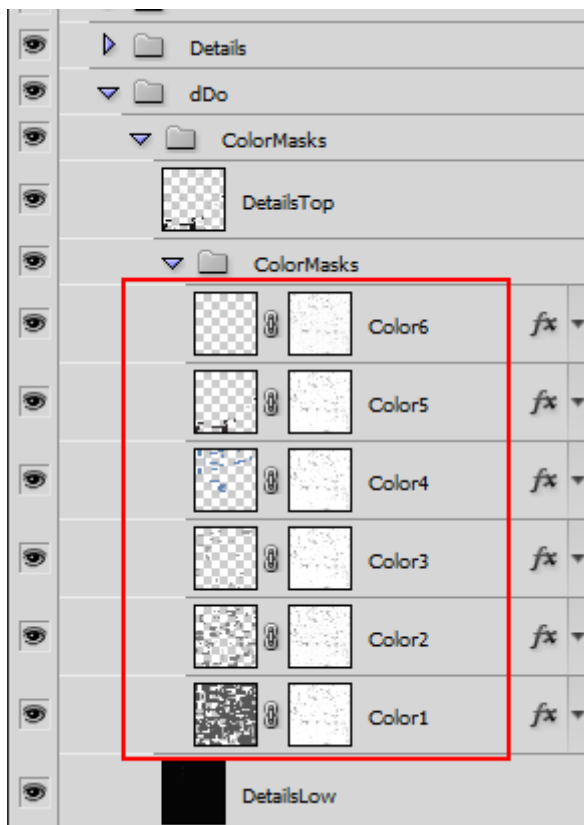

To use the models, simply drag the prefabs, located in the “Prefabs” folder into your scene.

### Customization

This pack contains a modular capital ship bridge.

### PSD Source File

The PSD can be used to change the colors of the albedo texture. Use the color masks in the PSD to recolor specific parts of the texture.

## **Albedo Maps**

There are two different types of albedo maps included. The occlusion map in the unity 5 standard shader seems to give only a very subtle effect. Therefore I added albedo maps with baked in ambient occlusion. These albedo maps with AO are added to the shaders by default. You can always change them with the pure albedo maps if you want.

## **Contact Information**

You can contact me here: [msgdi@yahoo.de](mailto:msgdi@yahoo.de). Please include your invoice number.

I always appreciate ratings/reviews on the asset store if you think this pack deserves it. Thank you.
